15B. CONTRACTOR/OFFEROR (Signature of the person authorized to sign)		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA BY (Signature of the person authorized to sign)		16C. DATE SIGNED	

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

(1) Section IV, Paragraph 4.2.1.8 is deleted in its entirety and replaced with the following Paragraph 4.2.1.8:

For any Internet monitors installed, the Contractor will not have a transmit pair back to where they capture data from.

(2) The following is provided for informational purposes and is in response to a vendor question received relative to Section IV, Statement of Work:

Question: Could you please review the discrepancy between clause 4.2.1.8 and the diagram on Page 10?

Response: The requirement is as stated in 4.2.1.8 above. The diagram on Page 10 of the Request for Proposal is merely a potential configuration as stated in Section 4.1, second bullet of Paragraph 4. The diagram is not a requirement of this project. Offerors are encouraged to propose solutions that meet the Government's requirement independent of the diagram.

Concerning the diagram on Page 10, the lines (with one way arrows) from the hub switches to the Internet Monitors are an approach for drawing the traffic data from the network (that is, do the monitoring) and for meeting requirement 4.2.1.8. The other lines (with arrows on both ends) from the Internet Monitors back to the "Region/Center Network" are for meeting the requirement to merge the data from the four Internet gateways (see the requirement in Paragraph 4.2.3.1). The secure manner in which this is done (dial-up, use of the FAA WAN, encryption, etc.) is up to the Offeror to propose (see Paragraphs 4.2.3.1 and 4.2.3.2).

(3) All other terms and conditions of the solicitation remain in full force and effect,
